Full Stack Web Developer

Professional Summary:

I am a web developer with a vast array of knowledge in many different front end and back end languages, responsive frameworks, databases, and best code practices. My objective is simply to be the best web developer that I can be and to contribute to the technology industry all that I know and can do. I am dedicated to perfecting my craft and learning from more seasoned developers, remaining humble, and continuously making strides to learn all that I can about development. During my studies at both ITT Technical Institute and University of California Riverside, I learned I have a great passion for Mathematics, and I believe that my understanding of problem solving and complex algorithms are also skills that have and will continue to contribute to my overall success as a developer.

Skills:

Front End Languages: CSS, HTML, Javascript

Frameworks: Bootstrap, JQuery

Back End Languages: Javascript

Database: MySQL, MS Access

Tools: VS Code, Heroku

Server Side: Node.js

Tasks & Project Management: GitHub

Other: NPM, Front-end testing, CSS media queries, Cross-browser compatibility,

Responsive design
